WIPO PCT

I, the undersigned, being an officer duly authorised in accordance with Section 74(1) and (4) of the Deregulation & Contracting Out Act 1994, to sign and issue certificates on behalf of the Comptroller-General, hereby certify that annexed hereto is a true copy of the documents as originally filed in connection with the patent application identified therein.

In accordance with the Patents (Companies Re-registration) Rules 1982, if a company named in this certificate and any accompanying documents has re-registered under the Companies Act 1980 with the same name as that with which it was registered immediately before re-registration save for the substitution as, or inclusion as, the last part of the name of the words "public limited company" or their equivalents in Welsh, references to the name of the company in this certificate and any accompanying documents shall be treated as references to the name with which it is so re-registered.

In accordance with the rules, the words "public limited company" may be replaced by p.l.c., plc, P.L.C. or PLC.

Re-registration under the Companies Act does not constitute a new legal entity but merely subjects the company to certain additional company law rules.

Signed

W. Evans

Dated 25 June 2003

Request for grant of a patent

(See the notes on the back of this form. You can also get an explanatory leaflet from the Patent Office to help you fill in this form)

The Patent Office

Cardiff Road
Newport
South Wales
NP10 8QQ

1. Your reference

2. Patent application number

(The Patent Office will fill in this part)

0211541.8

3. Full name, address and postcode of the or of each applicant (underline all surnames)

MS. LAONG SILAPROM
71 NAGS HEAD ROAD
PONDER'S END 8378788001
ENFIELD,
MIDDLESEX EN3 7AA

Patents ADP number (if you know it)

If the applicant is a corporate body, give the country/state of its incorporation

4. Title of the invention

A GREETINGS CARD

5. Name of your agent (if you have one)

"Address for service" in the United Kingdom to which all correspondence should be sent (including the postcode)

71 NAGS HEAD ROAD
PONDER'S END
ENFIELD,
MIDDLESEX EN3 7AA.

Patents ADP number (if you know it)

6. If you are declaring priority from one or more earlier patent applications, give the country and the date of filing of the or of each of these earlier applications and (if you know it) the or each application number

Country

Priority application number
(if you know it)

Date of filing
(day / month / year)

7. If this application is divided or otherwise derived from an earlier UK application, give the number and the filing date of the earlier application

Number of earlier application

Date of filing
(day / month / year)

8. Is a statement of inventorship and of right to grant of a patent required in support of this request? (Answer 'Yes' if:

NO

- a) any applicant named in part 3 is not an inventor, or
 - b) there is an inventor who is not named as an applicant, or
 - c) any named applicant is a corporate body.
- See note (d))

Any other documents
(please specify)

11. I/We request the grant of a patent on the basis of this application.

Signature
P.P.

Date 20-5-2000

12. Name and daytime telephone number of person to contact in the United Kingdom

Warning

After an application for a patent has been filed, the Comptroller of the Patent Office will consider whether publication or communication of the invention should be prohibited or restricted under Section 22 of the Patents Act 1977. You will be informed if it is necessary to prohibit or restrict your invention in this way. Furthermore, if you live in the United Kingdom, Section 23 of the Patents Act 1977 stops you from applying for a patent abroad without first getting written permission from the Patent Office unless an application has been filed at least 6 weeks beforehand in the United Kingdom for a patent for the same invention and either no direction prohibiting publication or communication has been given, or any such direction has been revoked.

Notes

- If you need help to fill in this form or you have any questions, please contact the Patent Office on 08459 500505.
- Write your answers in capital letters using black ink or you may type them.
- If there is not enough space for all the relevant details on any part of this form, please continue on a separate sheet of paper and write "see continuation sheet" in the relevant part(s). Any continuation sheet should be attached to this form.
- If you have answered 'Yes' Patents Form 7/77 will need to be filed.
- Once you have filled in the form you must remember to sign and date it.
- For details of the fee and ways to pay please contact the Patent Office.

DUPLICATE

A GREETINGS CARD

(0001) This invention relates to a greetings card that has three pages.

(0002) It is of course well known for other kinds of greetings cards to have three pages but in the case of the present invention the third page is not a decorative one.

(0003) In the case of the present invention, the third page of the greetings card is a reply post card.

(0004) The reply post card would be detachable. when detached it would leave the greetings card as a normal two page greetings card.

(0005) .The detachable reply postcard would be in the form of the third page of the greetings card that is removable along suitable lines of weakness, for example perforations. However alternative means of detachment may be employed. It could also have no lines of weakness and in this case it would simply be cut off with scissors along a printed dotted line.

(0006) Below is a description of the invention with reference to the accompanying drawings in which:

(0007) Figure 1 is a view of the outside of the greetings card.

(0008) Figure 2 is a view of the inside of the greetings card.

(0009) In the figures similar features have been given the same reference numerals for ease of identification.

(0010) Referring first to Figure 1 there are the three pages of the greetings card 1,2 & 3.

Surface 1 is the outside of the front page of the greetings card, the usual decorative page.

Surface 2 is the outside of the back page of the greetings card, the page that usually has the information on e.g. Price code, card company name, artist name .

Surface 3 is the outside of the detachable reply post card. In this instance with the card publishers details and a box to place a stamp in.

The card would be displayed as any normal two page greetings card would be. Page 3 would be folded over onto page 2 and then page 1 would be folded on top of page 3. When folded the greetings card would appear as any normal two page greetings card.

The dotted line 4 is a perforated line or alternatively it is simply a printed dotted line to be cut along with scissors.

(0014) Since the reply post card 3 is detachable, the bulk of the greeting card would be retained for sentimental reasons.

(0013) The invention thus provides a greetings card with a reply post card for the recipient to send his or her details back to the card company or any other organisation that published such a greetings card.

(0015) The information received by the greetings card publishers could be used for any number of promotions

(0017) Referring now to figure 2. Surface 1 is the inside of the front page of the greetings card. Surface 2 is the inside of the back page of the greetings card. Surface 2 comes with a greeting, in this instance "Happy Birthday". Surface 2 also comes with enough unused space for the sender to write a personal message.

Surface 3 is the detachable reply post card with spaces for the recipient to fill in his or her details. These details could then be used for any number of company promotions.
